ABOUT ME

I'm a motivated and focused learner with a strong passion for technology and practical problem-solving. I enjoy exploring new tools, building my skills, and working with teams to deliver reliable, high-quality work. I believe in steady improvement, taking responsibility, and contributing to projects that create real impact. I possess a strong aptitude for rapidly mastering new technologies and adapting to dynamic environments, and I am eager to leverage my technical foundation to tackle complex challenges.

EDUCATION

2022 - Present	Bachelor of Computer Science and Engineering
Daffodil International University, Asulia, Dhaka	CGPA: 3.54 Focused on technology-based problem-solving and Researcher.
2018 - 2020	Higher Secondary Certificate (HSC)
Bangladesh Noubahini School and College, Khulna	Result: 4.83 Completed Higher Secondary studies in Science with emphasis on analytical.
2016 - 2018	Secondary School Certificate (SSC)
Chamaful A.P.C High School, Satkhira	Result: GPA 4.61 Completed secondary education with strong academic foundation and interest in science and technology.

RESPONSIBILITIES

- Design and implement responsive front-end interfaces using HTML, CSS, and JavaScript, ensuring a seamless UI/UX experience.
- Develop robust, scalable software solutions using C, Java, and Python, strictly adhering to Object-Oriented Programming (OOP) principles.
- Conduct in-depth technical research to solve complex algorithmic problems and identify optimal tools for project execution.
- Collaborate with cross-functional teams to bridge the gap between visual design (UI) and backend logic.
- Perform rigorous testing and debugging across C and Java applications to enhance performance and stability.
- Document system architectures and research findings to facilitate future development and knowledge sharing.
- Maintain efficient version control and workflows while managing diverse tasks from web development to system programming.

SKILLS

- Researcher
- Technical & IT Skills
- Prototyping & Wireframing
- Front-End Developer
- Flutter Developer
- Design Systems & Component Libraries
- Computer Graphics (OpenGL)
- Graphics Designer

RECENT ACHIEVEMENTS

- Best Library Award(Spring 2025) – Recognized for outstanding contribution in library activities at DIU.
- Job Utsob Volunteer(Fall 2024) – Volunteered at DIU Job Utsob, assisting in event organization and coordination.
- 11th IEEE Accepted paper (2025) – Paper title “RosLightNet: A Lightweight DCNN Framework for Automated Rose Leaf Disease Classification with Interpretable Visual Explanations”
